ESTonetex Materials

for Theming Works

ESTONETEX TXT

MORTARS

DESCRIPTION

Thixotropic, moldable mortar for carving and stamping. Supports large volumes with strong adhesion and a workable open time for fine detailing and textures.

USES

Artificial rock, stone, figures, façade and walls, compatible with stamps and hand carving. And it can be sprayed or applied by hand.

THICKNESS

1 cm to 20 cm, in different layers

PROJECTS

Vertical walls, hotels, resorts, indoor and outdoor, zoos, ceilings, façades.

ESTONETEX FORTE

MORTARS

DESCRIPTION

Thin-coat mortar for decorative effects on top of EPS/XPS and low-adhesion substrates. Works as a structural primer and decorative finish layer.

USES

Primer to mortars TXT/Park/Sulfo/Extreme/Park; decorative thin layer mortar for EPS and plaster board. And it can be sprayed or applied by hand.

THICKNESS

2 mm to 15 mm

PROJECTS

Decorative works like stucco, travertino, concrete, microcement, rock texture and EPS figures.

1001

ESTONETEX PARK

MORTARS

DESCRIPTION

Decorative mortar for large surfaces with excellent site productivity and thixotropy for continuous modeling.

USES

Artificial rock, stone, figures, façade and walls, compatible with stamps and hand carving. And it can be sprayed or applied by hand.

THICKNESS

1 cm to 6 cm

PROJECTS

Theme parks, resorts, zoos, leisure spaces, outdoor and indoor surfaces.

ESTONETEX SULFO

MORTARS

DESCRIPTION

Thixotropic sulphate resistant, moldable mortar for carving and stamping. Supports large volumes with strong adhesion and a workable open time for fine detailing and textures.

USES

Coast environments, surfaces in touch with salt and chlorine water. And it can be sprayed or applied by hand.

THICKNESS

1 cm to 20 cm, in different layers

PROJECTS

Pools, waterfalls, showers, fountains, resorts, water parks.

ESTONETEX EXTREME

MORTARS

DESCRIPTION

Thixotropic, moldable mortar for carving and stamping. High-strength mortar for continuous contact/immersion (chlorine/salt water) and severe climates.

USES

Aquariums, submerged rock, heavy-wear areas and critical reconstructions.

Additive with EST-26 Multilite (1 product x 5 water). And it can be sprayed or applied by hand.

THICKNESS

2 cm to 20 cm, in different layers

PROJECTS

Pools, aquariums, zoos, fountains, spas, saunas.

ESTONETEX PAV

MORTARS

DESCRIPTION

Single-component wear layer mortar for themed pavements, and decorative floors

USES

10–20 mm toppings, walkways, themed plazas; anti-slip finish via texture or stamps. And it can be sprayed or applied by hand.

THICKNESS

1 cm to 2 cm

PROJECTS

Public pavements, garages, theme parks, outdoor and indoor floors.

ESTONETEX EXTREME SR-MR

MORTARS

DESCRIPTION

Thixotropic sulphate resistant, moldable mortar for carving and stamping. High-strength mortar for continuous contact/immersion (marine water) and severe climates.

USES

Aquariums, submerged rock, heavy-wear areas and critical reconstructions.

Additive with EST-26 Multilite (1 product x 5 water) or directly mixed with water. And it can be sprayed or applied by hand.

THICKNESS

2 cm to 20 cm, in different layers

PROJECTS

Pools, aquariums, zoos, fountains, spas, saunas.

ESTONETEX FIBRAX

MORTARS

DESCRIPTION

Super-fibered primer/bonding mortar for EPS/XPS and mineral bases; high-adhesion primer.

USES

EPS primer, it avoids to put fiberglass mesh due it super fibered. And it can be sprayed or applied by hand.

THICKNESS

5 mm to 20 mm

PROJECTS

Primer for EPS on waterfalls, artificial rock, decorative sculptures and theme parks.

ESTONETEX RESTAURA

MORTARS

DESCRIPTION

Lime-based mortar for heritage and restoration, formulated for compatibility with natural stone and brick.

USES

Restoring existing natural stone or brick and stone sculptures.

Additive with EST-26 Multilite (1 product x 6 water). And it can be sprayed or applied by hand.

THICKNESS

1 cm to 20 cm, in different layers

PROJECTS

Heritage restoration, old walls, rustic houses and villas, vertical surfaces with dampness problems.

TRABICAL

MORTARS

DESCRIPTION

Natural lime-gypsum mortar for indoor vertical applications, providing fine finish and comfortable workability. For microcement, stucco and travertino effects.

USES

Interior renders, smooth finishes and textures in new build or existing walls. Application by hand.

THICKNESS

2 mm to 12 mm

PROJECTS

Indoor walls, resorts, private houses, bio construction, hotels, luxury villas.

ART ROCK FI

MORTARS

DESCRIPTION

Thin-coat mortar for decorative effects on top of EPS/XPS and low-adhesion substrates. Works as a structural primer and leveling/fine finish layer.

USES

Decorative thin layer mortar for EPS and plaster board. And it can be sprayed or applied by hand.

THICKNESS

2 mm to 15 mm

PROJECTS

Decorative works like stucco, travertino, concrete, microcement, rock texture and EPS figures.

TEXTUREST

MORTARS

DESCRIPTION

Colored one-coat render for scratched or textured finishes; high façade resistance and durability.

USES

Exterior/interior coatings with mineral aesthetics; single coat or built-up system up to 30 mm. And it can be sprayed or applied by hand.

THICKNESS

8 mm to 30 mm, in different layers

PROJECTS

Indoor and outdoor walls, façades, ceilings, large projects, and resorts.

HYDRAULIC LIME NHL 3,5

MORTARS

DESCRIPTION

Pure Natural Hydraulic Lime (NHL) fired from selected marly limestones ($\approx 900-1200^{\circ}\text{C}$) and slowly hydrated; additive-free. Highly breathable binder for healthy interiors and fully compatible with historic masonry.

USES

Heritage restoration and bio-construction; interior/exterior renders; grouting natural stone and brick; bedding rustic floors (ceramic/stone) and arab roof tiles; wineries and damp-prone buildings. Mix with 3 parts of sand.

THICKNESS

5 mm to 30 mm

PROJECTS

Heritage restoration, bio construction, rustic houses and villas.

HYDRAULIC LIME NHL 5

MORTARS

DESCRIPTION

Pure Natural Hydraulic Lime of higher strength class than NHL3.5; kiln-fired from marly limestones and slowly hydrated; no additives. Maintains breathability with improved structural performance.

USES

New-build and restoration; masonry with ceramic blocks; setting natural stone; rustic floor bedding (ceramic/stone); arab roof tiles; interior/exterior renders; cellars and humid environments. Mix with 3 parts of sand.

THICKNESS

5 mm to 30 mm

PROJECTS

Heritage restoration, bio construction, rustic houses and villas.

TRABICAL

EST-26 MUTLTILITE TRANSPARENT

Potassium silicate mineral in a colorless base. It works as a consolidant for Mixol stains, an additive for ESTonetex mortars, and a primer for mineral substrates. It penetrates the substrate without leaving surface layers and allows the mortar to breathe.

PACKAGING: 10L

REF: 1100

EST-26 MULTILITE COLOR

Colored mineral potassium silicate. Ready-to-use product that can be applied directly onto mineral substrates for pigmentation. Mixol tint can be added to modify its color, or the colorless base can be added to reduce its intensity. Color chart available.

PACKAGING: 5L - 10L

REF: 1101 - 5L
REF: 1102 - 10L

EST-SILCOPIN TRANSPARENT

Potassium silicate mineral in a colorless base. It works as a consolidant for Mixol stains, an additive for ESTonetex mortars, and a primer for mineral substrates. It penetrates the substrate without leaving surface layers and allows the mortar to breathe.

PACKAGING: 10L

REF: 1103

EST-SILCOPIN COLOR

Colored mineral potassium silicate. Ready-to-use product that can be applied directly onto mineral substrates for pigmentation. Mixol tint can be added to modify its color, or the colorless base can be added to reduce its intensity. Color chart available.

PACKAGING: 5L - 10L

REF: 1104 - 5L
REF: 1105 - 10L

EST-MONOCROM TRANSPARENT

Mineral potassium silicate in gel format in a colorless base. It acts as a consolidant for Mixol tints. Great hiding power, ideal for carrying out monochrome pigmentation or with intense or dark colors. It penetrates the substrate without leaving surface layers and allows the mortar to breathe.

PACKAGING: 5L - 10L

REF: 1106 - 5L
REF: 1107 - 10L

EST-MONOCROM COLOR

Mineral potassium silicate in gel format with a colored base. Ready-to-use preparation, it can be applied directly onto mineral bases for pigmentation. It allows for the addition of Mixol tint to modify its color or a colorless base to reduce the intensity. Color chart.

PACKAGING: 5L - 10L

REF: 1108 - 5L
REF: 1109 - 10L

EST-MONPIL TRANSPARENT

Mineral potassium silicate in gel format in a colorless base. It acts as a consolidant for Mixol tints. Great hiding power, ideal for carrying out monochrome pigmentation or with intense or dark colors. It penetrates the substrate without leaving surface layers and allows the mortar to breathe.

PACKAGING: 5L - 10L

REF: 1110 - 5L
REF: 1111 - 10L

EST-MONPIL COLOR

Mineral potassium silicate in gel format with a colored base. Ready-to-use preparation, it can be applied directly onto mineral bases for pigmentation. It allows for the addition of Mixol tint to modify its color or a colorless base to reduce the intensity. Color chart.

PACKAGING: 5L - 10L

REF: 1112 - 5L
REF: 1113 - 10L

EST-MULTIPOL TRANSPARENT

Hybrid glaze of nano-acrylates and polyurethane, for mineral bases in a colorless base. It acts as a consolidant for Mixol tints. Permeable to water vapor, it can be diluted with up to 3 parts of water to create less intense colors.

PACKAGING: 5L - 10L

REF: 1114 - 5L
REF: 1115 - 10L

EST-MULTIPOL COLOR

Mineral potassium silicate in gel format with a colored base. Ready-to-use preparation, it can be applied directly onto mineral bases for pigmentation. It allows for the addition of Mixol tint to modify its color or a colorless base to reduce the intensity. Color chart.

PACKAGING: 5L - 10L

REF: 1116 - 5L
REF: 1117 - 10L

EST-DECOR

Mineral powder patinas. Available in 8 colors, they can be mixed with each other to obtain different shades. Apply onto the mortar while it is still fresh (wet/setting); they allow for the creation of decorative effects with textures. Color chart.

PACKAGING: 1KG - 3KG - 10KG - 20KG

REF: 1118 - 1KG
REF: 1119 - 3KG
REF: 1120 - 10KG
REF: 1121 - 20KG

EST-MINERAL PIGMENT

Pure mineral powder pigment for tinting mortar and concrete. Great pigmentation power; they must be mixed when the mortar is being blended with water to achieve a homogeneous color. Color chart.

PACKAGING: 1KG - 5KG - 10KG

REF: 1122 - 1kg
REF: 1123 - 5kg
REF: 1124 - 10KG

MIXOL

Universal mineral tint for mixing with the consolidants of the ESTonetex System. Mixol tints can be mixed together to create different color shades; the metallic range and oxyde colors are suitable for both indoor and outdoor use. Resistant to UV light and weatherin.

PACKAGING: 200GR - 500GR

EST-3 PLUS N

Mineral water-repellent, anti-algae and oil-repellent, based on siloxanes and nano-silanes. Thanks to its nanotechnology, it penetrates into the mineral substrate, regulating water absorption while allowing it to breathe. It does not alter the color or gloss of the surface, so it is completely colorless once applied. Suitable for both indoor and outdoor use.

PACKAGING: 1L - 5L - 10L

REF: 1200 - 1L
REF: 1201 - 5L
REF: 1202 - 10L

EST-7

Drying mineral water-repellent based on siloxanes and nano-silanes. Thanks to its nanotechnology, it penetrates into the mineral substrate and is breathable. It does not alter the color or gloss of the surface, so it is completely colorless once applied. Especially designed for damp surfaces and heritage restoration.

PACKAGING: 1L - 5L - 10L

REF: 1203 - 1L
REF: 1204 - 5L
REF: 1205 - 10L

EST-MULTILITIO

Lithium silicate for consolidating mineral surfaces. It allows the substrate to breathe and is compatible with moisture. Specially designed for application on natural stone and polished concrete floors.

PACKAGING: 1L - 5L - 10L

REF: 1206 - 1L
REF: 1207 - 5L
REF: 1208 - 10L

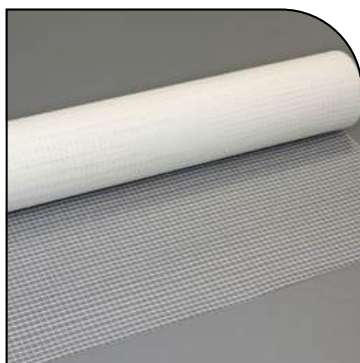

EST-FLOOR

It is a water-based varnish for decorative and industrial flooring and stamped concrete. It creates a protective film that improves curing. It has good adhesion on porous substrates and mineral bases, as well as good overall chemical and mechanical resistance. Ideal for outdoor use.

PACKAGING: 5L - 25L

REF: 1209 - 5L
REF: 1210 - 25L

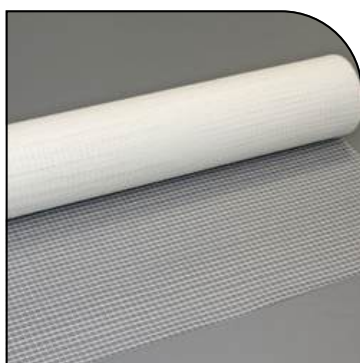

EST-MESH 80GR

80 g/m² fiberglass mesh roll, 50M long and 1M wide, ideal for mortars, renders and mortars with coarse aggregate. Perfect for ESTonetex TXT and ESTonetex Park mortars, it helps reinforce surfaces and prevents the appearance of cracks. Color white,

PACKAGING: 50M2

REF: 1300 - ROLL

MESH 110GR

110 g/m² fiberglass mesh roll, 50M long and 1M wide, ideal for mortars, renders and mortars with coarse aggregate. Perfect for ESTonetex TXT and ESTonetex Park mortars, it helps reinforce surfaces and prevents the appearance of cracks. Color white,

PACKAGING: 50M2

REF: 1301 - ROLL

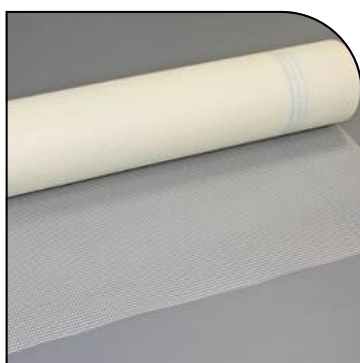

MESH TRAMAGLASS 160GR

160 g/m² fiberglass mesh roll, 50M long and 1.1M wide, for mortars, renders and mortars with fine aggregate. Ideal for ETICS (SATE system) and applications on EPS and XPS polystyrene.

PACKAGING: 55M2

REF: 1302 - ROLL

MESH TRAMAGLASS 145GR

145 g/m² fiberglass mesh roll, 50M long and 1M wide, for mortars, renders and mortars with fine aggregate. Ideal for ETICS (SATE system) and applications on EPS and XPS polystyrene.

PACKAGING: 50M2

REF: 1303 - ROLL

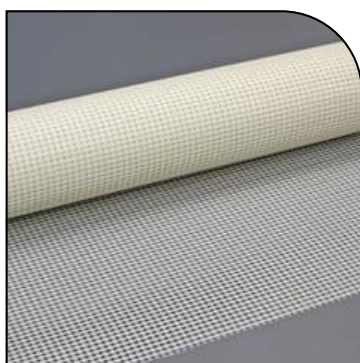

MESH 160 GR SATE

160 g/m² fiberglass mesh roll, 50M long and 1M wide, for mortars, renders and mortars with fine aggregate. Ideal for ETICS (SATE system) and applications on EPS and XPS polystyrene.

PACKAGING: 50M2

REF: 1304 - ROLL

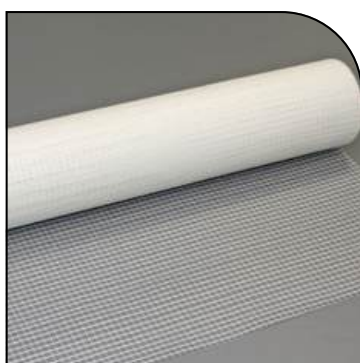

MESH 330GR

330 g/m² fiberglass mesh roll, 25M long and 1M wide. Used as a coating for rebar structures in the creation of artificial rock and waterfalls. It can also be used as a reinforcing mesh in the lower areas of walls and façades.

PACKAGING: 25M2

REF: 1305 - ROLL

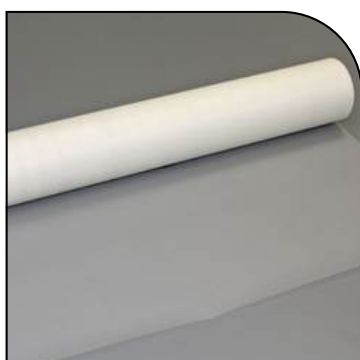

MESH 220GR

220 g/m² fiberglass mesh roll, 50M long and 1M wide. Used as a coating for rebar structures in the creation of artificial rock and waterfalls. It can also be used as a reinforcing mesh in the lower areas of walls and façades.

PACKAGING: 50M2

REF: 1306 - ROLL

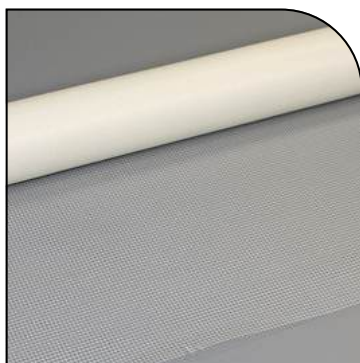

MESH 45GR

45 g/m² fiberglass mesh roll, 50 m long and 1 m wide. Used as reinforcement for waterproofing terraces or floors, and can also be used with mortars with very fine aggregate.

PACKAGING: 50M2

REF: 1307 - ROLL

MESH TRAMAGLASS 75GR

75 g/m² fiberglass mesh roll, 50 m long and 1 m wide. Used to reinforce surfaces coated with microcement, fine-aggregate mortars and plasters.

PACKAGING: 50M2

REF: 1308 - ROLL

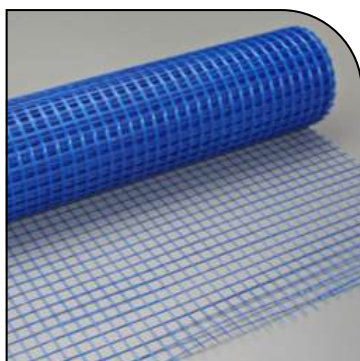

FIBERGLASS VEIL

45 g/m² fiberglass veil roll, 50 m long and 1 m wide. Used to reinforce surfaces coated with stuccos, fillers or paints, ideal for repairing existing cracks in floors and walls.

PACKAGING: 50M2

REF: 1309 - ROLL

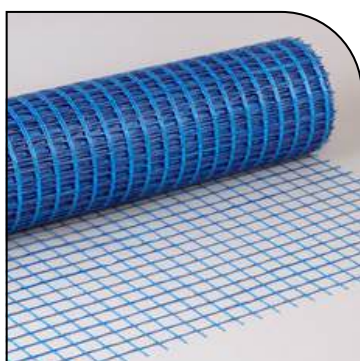

MESH TRAMAGLASS SGR 96

120 g/m² fiberglass mesh roll, 50 m long and 1.1 m wide. Used to reinforce pavements and floors made with mortar, concrete and self-levelling mortar.

PACKAGING: 55M2

REF: 1310 - ROLL

MESH TRAMAGLASS SGR 120

153 g/m² fiberglass mesh roll, 50 m long and 1.1 m wide. Used to reinforce pavements and floors made with mortar, concrete and self-levelling mortar.

PACKAGING: 55M2

REF: 1311 - ROLL

MESH TAPE 65GR

Self-adhesive fiberglass mesh tape, 120 g/m², 23 m long and 15 cm wide. Used to reinforce plasterboard or fibre cement boards, and also to repair existing cracks in floors or walls.

PACKAGING: BOX OF 12 UNITS

REF: 1312 - BOX

FIXING ANCHORS 70MM LTX-70

Hammer-in mechanical fixing plug with a 70 mm long polyamide nail reinforced with fiberglass, used to mechanically anchor EPS/XPS boards or to fasten mesh on surfaces with poor adhesion.

PACKAGING: BOX OF 200 UNITS

REF: 1313 - BOX

STAPLES FOR PNEUMATIC STAPLER

Galvanized RT-C23 ring staples for pneumatic staplers, boxes of 10,000 units.

PACKAGING: BOX OF 10.000 UNITS

REF: 1314 - BOX

STAPLES FOR MANUAL STAPLER

Galvanized A20 ring staples for manual staplers, boxes of 1,000 units.

PACKAGING: BOX OF 1.000 UNITS

REF: 1315 - BOX

EST-DESMOLDEANTE

Liquid release agent to prevent adhesion on stamps, rollers and tools. It has high volatility, so it does not create surface layers or cause stains on white surfaces.

PACKAGING: 5L - 25L

REF: 1400 - 5L
REF: 1401 - 25L

EST-12

Water-based concentrated detergent cleaner, free of chlorine and formaldehyde, biodegradable and compatible with moisture. Wide range of applications and sectors, suitable for both indoor and outdoor use on horizontal and vertical surfaces. Especially recommended for historic heritage restoration.

PACKAGING: 1L - 5L - 10L

REF: 1402 - 1L
REF: 1403 - 5L
REF: 1404 - 10L

EST-EPS ELASTIC

Concentrated multifunction additive in aqueous dispersion of pure acrylates and polyurethane. It improves the protective, waterproofing, compaction and overall strength properties of mortars in the ESTonetex System. Add to the mixing water of the mortars.

PACKAGING: 5L - 10L - 25L

REF: 1405 - 5L
REF: 1406 - 10L
REF: 1407 - 25L

EST-S IMPRIMER

Single-component bonding primer coating based on synthetic resins, siliceous mineral fillers and organic and inorganic additives. Specially formulated as a bonding primer for mortars on smooth and/or non-absorbent substrates. It can be mixed with 1 part of water.

PACKAGING: 5KG - 15KG

REF: 1408 - 5KG
REF: 1409 - 15KG

EST-GEL CAL

Lime plasticiser to improve the workability of cement mortars, specially designed for mortar used to grout stone and brick.

PACKAGING: 2L

REF: 1410 - 2L

EST-FAST

It is an admixture for reinforced mortars and concretes that accelerates setting time, increases early strength, reduces shrinkage and improves workability. It has been specially designed to enhance the cement hydration process at early ages.

PACKAGING: 1L - 5L - 25L

REF: 1411 - 1L

REF: 1412 - 5L

REF: 1413 - 25L

EST-SLOW

It is a liquid admixture for mortars and concretes that delays the start of setting without altering the final strength. It can be used with any type of cement.

PACKAGING: 1L - 5L - 25L

REF: 1414 - 1L

REF: 1415 - 5L

REF: 1416 - 25L

EST-COLD

It is an anti-freeze admixture for mortars and concretes that is effective down to -10°C, allowing mortar application or concrete pouring at low temperatures.

PACKAGING: 1L - 5L - 25L

REF: 1417- 1L

REF: 1418 - 5L

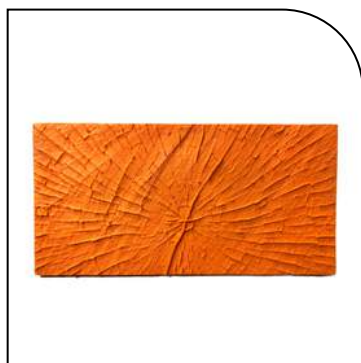

REF: 1419 - 25L

ESTONE MARES KIT

3-piece kit for creating and marking dry-joint stone textures.
Flexible.

MEASURES (1 piece): 244 X 41 x 4 CM
MEASURES (Kit): 244 X 123 x 4 CM

REF: 2158

EVEREST TROWEL 1

Semi-flexible stainless steel trowel with irregular edges and an ergonomic polypropylene and elastomer handle, for creating decorative textures and rock effects on mortar.

MEASURES: 300 X 150 X 0,6 MM

REF: 2200

EST TROWEL 1

Semi-flexible stainless steel trowel with rounded tips and an ergonomic polypropylene and elastomer handle, for shaping and creating decorative textures on mortar.

MEASURES: 230 X 75 X 0.6 MM

REF: 2201

EST TROWEL 2

Semi-flexible stainless steel trowel with triangular tip and an ergonomic polypropylene and elastomer handle, for shaping and creating decorative textures on mortar.

MEASURES: 210 X 60 X 0.6 MM

REF: 2202

EST TROWEL 3

Semi-flexible stainless steel trowel with rounded tips and an ergonomic polypropylene and elastomer handle, for shaping and creating decorative textures on mortar.

MEASURES: 350 X 100 X 0.6 MM

REF: 2203

EVEREST SPATULA 1

Semi-flexible stainless steel spatula with irregular edges and an ergonomic polypropylene and elastomer handle, for creating decorative textures and rock effects on mortar.

MEASURES: 230 X 120 X 0,5 MM

REF: 2204

EST CURVED SPATULA 1

Semi-flexible stainless steel spatula with a curved shape and an ergonomic polypropylene and elastomer handle, for applying mortar and collecting mortar from the bucket.

MEASURES: 230 X 280 X 0.5 MM

REF: 2205

EST CURVED SPATULA 2

Semi-flexible stainless steel spatula with a curved shape and an ergonomic polypropylene and elastomer handle, for modelling and carving mortar.

MEASURES: 230 X 30 X 0.5 MM

REF: 2206

EST MALETIN N1

Orange case for storing and transporting tools, stamps, rollers and trowels. Tools shown in the picture are not included.

MEASURES: 390 X 300 X 180 MM

REF: 2207

EST SPRAY PREMIUM

Plastic spray bottle with 1.5 L capacity for applying ESTonetex System pigmentation and sealer products.

MEASURES: 230 X 120 X 0,5 MM

REF: 2208

EST SPRAY BASIC

Plastic spray bottle with 1.5 L capacity for applying water and low-residue liquids.

MEASURES: 230 X 280 X 0.5 MM

REF: 2209

EST TOOL KIT N1

Tool kit with case, including:

- EST Maletin N1
- EVEREST Trowel 1
- EST Trowel 1
- EST Trowel 2
- EST Trowel 3
- EVEREST Spatula 1
- EST Curved Spatula 1
- EST Curved Spatula 2
- Wire brush (plastic handle)
- 5m measure tape
- 18 mm reinforced cutter
- 14 cm premium plaster spatula
- 8 cm rounded stucco spatula
- 7.5 cm multipurpose scraper
- 30 x 15 cm bricklayer's trowel

REF: 2210

EST TOOL KIT N2

Tool kit with case, including:

- EST Maletin N1
- EVEREST Trowel 1
- EST Trowel 1
- EST Trowel 2
- EST Trowel 3
- EVEREST Spatula 1
- EST Curved Spatula 1
- EST Curved Spatula 2

REF: 2211

EST EPS KNIFE

200 W hot knife for cutting EPS/XPS, with temperature regulator and safety spring switch. Reaches up to 600 °C. Includes 15 cm rigid blade, cleaning brush and wrench.

MEASURES: 275 GR

REF: 2300

EST ARCH CUTTER

Battery-powered hot wire cutting bow for polystyrene. Clean hot wire cutting without polystyrene detachment. Maximum cutting depth: 330 mm. Maximum cutting width: 1320 mm. Batteries: 18 V / 2.0 Ah

MEASURES: 140 X 10 X 35 CM

REF: 2301

EST EPS CUTTER KIT

48 V – 480 W power supply with temperature regulator, switch and 4 mm terminals. Input voltage: 110 V – 220 V. Output voltage: 48 V. Maximum power: 480 W. The handles are 45 cm long. The handle cable length is 150 cm. Includes handles and wire.

MEASURES: 1900 GR

REF: 2302

EST ARCH CUTTER 35CM

35 cm hot wire bow for cutting expanded polystyrene (EPS). Very light and handy. Recommended power supply: 24 V – 200 W. Transformer sold separately. Allows cuts up to 32 cm wide and 20 cm deep.

MEASURES: 130 GR

REF: 2303

EST POWER SUPPLY

48 V – 480 W power supply with temperature regulator, switch and 4 mm terminals.
Input voltage: 110 V – 220 V.
Output voltage: 48 V.
Suitable for connecting hot wire cutting bows, cutting tables, hot wire cutting tools and CNC machines.

MEASURES: 24 X 20 x 10 CM

REF: 2304

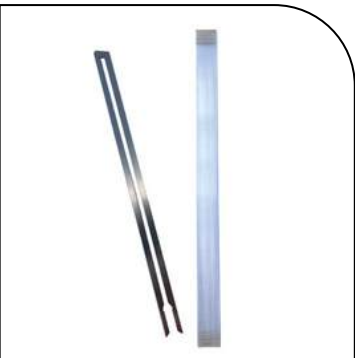

EST RIGID BLADE 15 CM

15cm rigid blade for cutting and emptying expanded polystyrene (EPS), extruded polystyrene (XPS), polystyrenes and foams of any density.

MEASURES: 150 X 15 X 1 MM

REF: 2305

EST RIGID BLADE 20 CM

20cm rigid blade for cutting and emptying expanded polystyrene (EPS), extruded polystyrene (XPS), polystyrenes and foams of any density.

MEASURES: 200 X 15 X 1 MM

REF: 2306

EST NICHROME WIRE 1,5MM

1.5 mm thick nichrome hot wire for cutting polystyrene.
Available in 1 m spools.
Ideal for hot cutting, suitable for EST EPS CUTTER.

MEASURES: 1M - 1,5MM

REF: 2307

EST NICHROME WIRE 0,15MM

0.15 mm thick nichrome hot wire for cutting polystyrene.
Available in 15 m spools.
Ideal for hot cutting, suitable for EST EPS CUTTER KIT.

MEASURES: 15M - 0,15MM

REF: 2308

EST NICHROME WIRE 0,25MM

0.25 mm thick nichrome hot wire for cutting polystyrene.
Available in 6 m spools.
Ideal for hot cutting, suitable for EST EPS CUTTER KIT.

MEASURES: 6M - 0,25MM

REF: 2309

EST NICHROME WIRE 0,40MM

0.40 mm thick nichrome hot wire for cutting polystyrene.
Available in 6 m spools.
Ideal for hot cutting, suitable for EST EPS CUTTER KIT.

MEASURES: 6M - 0,40MM

REF: 2310

EST NICHROME WIRE 0,65MM

0.65 mm thick nichrome hot wire for cutting polystyrene.
Available in 6 m spools.
Ideal for hot cutting, suitable for EST EPS CUTTER KIT.

MEASURES: 6M - 0,65MM

REF: 2311

8CM ROUNDED STUCCO SPATULA

Semi-flexible stainless steel spatula with rounded tips and an ergonomic polypropylene and elastomer handle, for modelling and carving mortar.

MEASURES: 230 X 80 X 1.2 MM

REF: 2400

14CM PREMIUM PLASTER SPATULA

Semi-flexible stainless steel spatula with rounded tips and an ergonomic polypropylene and elastomer handle, for modelling and applying mortar.

MEASURES: 230 X 280 X 0.5 MM

REF: 2401

7.5CM MULTIPURPOSE SCRAPER

Rigid stainless steel spatula with an ergonomic polypropylene and elastomer handle, for removing paint, foam, cement and other material residues.

MEASURES: 230 X 75 X 1.8 MM

REF: 2402

30X15CM BRICKLAYER'S TROWEL

Rigid stainless steel trowel with wooden handle, for applying mortars and smoothing surfaces.

MEASURES: 300 X 150 X 1.8 MM

REF: 2403

5M MEASURE TAPE

Tape measure, a measuring instrument up to 5 meters. It is flexible and comfortable.

MEASURES: 8 X 7 X 3 CM

REF: 2404

WIRE BRUSH (PLASTIC HANDLE)

Wire brush with plastic handle for theming work, decoration and masonry.

MEASURES: 26 X 3 X 2 CM

REF: 2405

18 MM REINFORCED CUTTER

Reinforced cutter with 18 mm blade, with a bi-material ergonomic handle and replaceable blade. Easy disassembly with safety wheel and high-quality construction.

MEASURES: 4 x 17 x 2 CM

REF: 2406

19 CM SMALL POOL TROWEL

Rigid stainless steel trowel with rounded tips and wooden handle, for shaping and smoothing mortar.

MEASURES: 190 X 100 X 100 MM

REF: 2407

5CM ESSENTIAL SPATULA

Flexible 50 mm stainless steel spatula with plastic handle.

MEASURES: 200 X 50 X 1 MM

REF: 2408

CURVED STEEL TROWEL

Curved steel trowel with wooden handle, for applying, shaping and carving mortar.

MEASURES: 180 x 90 X 15 MM

REF: 2409

RECTANGULAR STEEL TROWEL

Rectangular steel trowel with wooden handle, for applying, shaping and carving mortar.

MEASURES: 130 x 50 X 15 MM

REF: 2410

PREMIUM SWISS-SHAPE SPATULA

Stainless steel spatula with wooden handle, for carving and shaping mortar.

MEASURES: 200 X 20 X 1 MM

REF: 2411

BIG CURVED SCRAPER

Big curved scraper with wooden handle and steel blade, 10 cm long, for carving mortar, especially dry-joint stone or creating cracks in rock.

MEASURES: 200 X 30 X 30 MM

REF: 2412

SMALL CURVED SCRAPER

Small curved scraper with wooden handle and steel blade, 8 cm long, for carving mortar, especially dry-joint stone or creating cracks in rock.

MEASURES: 180 X 30 X 30 MM

REF: 2413

40 CM POOL TROWEL

Rigid stainless steel trowel with rounded tips and wooden handle, for shaping and smoothing mortar.

MEASURES: 400 X 100 X 80 MM

REF: 2414

SYRINGE 60ML

60 ml plastic measuring syringe with 5 cm needle and protective cap. For measuring all types of liquids.

MEASURES: 200 X 40 X 40 MM

REF: 2415

50 CM FILLING SPATULA

50 cm filling blade with ergonomic handle and 1 mm thick rigid stainless steel blade.
For levelling and smoothing surfaces with cement mortars, plaster, gysum, lime mortar, etc.

MEASURES: 50 X 22 X 1 CM

REF: 2416

60 CM FILLING SPATULA

60 cm filling blade with ergonomic handle and 1 mm thick rigid stainless steel blade.
For levelling and smoothing surfaces with cement mortars, plaster, gysum, lime mortar, etc.

MEASURES: 60 X 22 X 1 CM

REF: 2417

50 CM FILLING SPATULA WITH HANDLE

60 cm filling blade with 2 handles and 1 mm thick rigid stainless steel blade.
For levelling and smoothing surfaces with cement mortars, plaster, gysum, lime mortar, etc.

MEASURES: 50 X 22 X 10 CM

REF: 2418

60 CM FILLING SPATULA WITH HANDLE

50 cm filling blade with 2 handles and 1 mm thick rigid stainless steel blade.
For levelling and smoothing surfaces with cement mortars, plaster, gysum, lime mortar, etc.

MEASURES: 60 X 22 X 10 CM

REF: 2419

BRICK JOINTER 1

Brick jointers with steel head and wooden handle, for scraping joint mortar, creating decorative effects and carving mortar.

MEASURES: 35 X 180 X 25 MM

REF: 2420

BRICK JOINTER 2

Brick jointers with steel head and wooden handle, for scraping joint mortar, creating decorative effects and carving mortar.

MEASURES: 25 X 175 X 25 MM

REF: 2421

BRICK JOINTER 3

Brick jointers with steel head and wooden handle, for scraping joint mortar, creating decorative effects and carving mortar.

MEASURES: 25 X 175 X 25 MM

REF: 2422

BRICK JOINTER 4

Brick jointers with steel head and wooden handle, for scraping joint mortar, creating decorative effects and carving mortar.

MEASURES: 25 X 180 X 25 MM

REF: 2423

BRICK JOINTER 5

Brick jointers with steel head and wooden handle, for scraping joint mortar, creating decorative effects and carving mortar.

MEASURES: 25 X 180 X 25 MM

REF: 2424

BRICK JOINTER 6

Brick jointers with steel head and wooden handle, for scraping joint mortar, creating decorative effects and carving mortar.

MEASURES: 25 X 180 X 25 MM

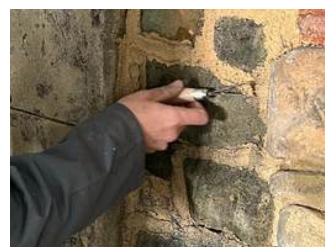

REF: 2425

BRICK JOINTER 7

Brick jointers with steel head and wooden handle, for scraping joint mortar, creating decorative effects and carving mortar.

MEASURES: 25 X 180 X 25 MM

REF: 2426

BRICK JOINTER 8

Brick jointers with steel head and wooden handle, for scraping joint mortar, creating decorative effects and carving mortar.

MEASURES: 25 X 180 X 25 MM

REF: 2427

MARKER

19 cm steel marking tool with wooden handle.

MEASURES: 190 X 25 X 25 MM

REF: 2428

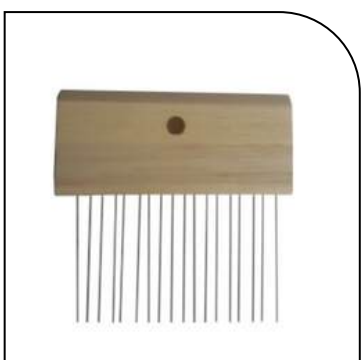

TEXTURE RAKE

Plastic rake with wooden handle for creating textures on vertical surfaces.

MEASURES: 370 X 140 X 110 MM

REF: 2429

FINE SCRATCHING COMB

Scoring comb with fine hardened steel teeth. The teeth measure 10.5 x 6.5 cm. For scoring mortars, plasters or other materials to create a mechanical anchorage.

MEASURES: 120 X 120 X 20 MM

REF: 2430

FINE BROOM

Fine brush with plastic bristles. Ideal for creating textures in mortar and for cleaning in all types of work.

MEASURES: 300 X 80 X 140 MM

REF: 2431

MEDIUM BROOM

Medium brush with plastic bristles. Ideal for creating textures in mortar and for cleaning in all types of work.

MEASURES: 29 X 6 X 13 CM

REF: 2432

THICK BIG BROOM

Big brush with plastic bristles. Ideal for creating textures in mortar and for cleaning in all types of work.

MEASURES: 50 X 7 X 12 CM

REF: 2433

PIPING BAGS

Grouting bags, suitable for use with any type of mortar. High quality; they can be cut wherever desired to achieve the required width. The bags are 65 cm long and come in boxes of 100 units.

MEASURES: 35 X 9 X 9 CM

REF: 2434

ALUMINIUM HAWK

33 x 33 cm aluminium hawk with wooden handle. For masonry, theming and decorative work.

MEASURES: 33 X 33 X 13 CM

REF: 2435

RELEASE SPRAY

1L refillable plastic spray bottle. Suitable for solvents, release agents, water repellents, water, etc.

MEASURES: 10 X 10 X 29 CM

REF: 2436

FUNNEL WITH FILTER

Hard plastic funnel with filter. Ideal for all types of liquids; resistant to acids and oils.

MEASURES: 20 X 21 X 17 CM

REF: 2437

THEMING KNIFE

Theming marking knife with 13.5 cm stainless steel blade.

MEASURES: 26 X 3 X 2 CM

REF: 2438

30L BUCKET

30 L bucket made of high-quality flexible plastic.

MEASURES: 32 X 32 X 48 CM

REF: 2439

PLASTIC SCOOP

33 cm white plastic paste scoop.

MEASURES: 33 X 11 X 8 CM

REF: 2440

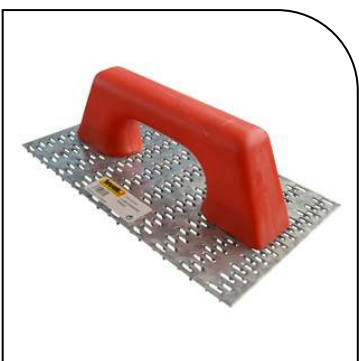

SPONGE TROWEL

Orange foam trowel with fibreglass handle, 14 x 28 cm. Coarse finish.

MEASURES: 28 X 14 X 9 CM

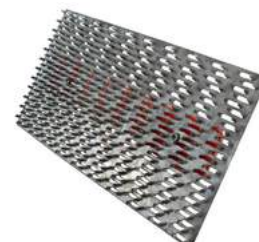

REF: 2441

SCRAPER TROWEL

Trowel with asymmetrical teeth for applying one-coat mortar, with a screwed PVC handle. For masonry and construction use.

MEASURES: 24 X 14 X 8 CM

REF: 2442

STAINLESS STEEL STUCCO TROWEL

8 cm stainless steel trowel with ergonomic handle.

MEASURES: 24 X 8 X 7 CM

REF: 2443

EXTERIOR ADHESIVE TAPE

Exterior adhesive tape, 25 m long, suitable for porous or hard-to-stick surfaces.

MEASURES: 25M X 30MM
MEASURES: 25M X 48MM

REF: 2444
REF: 2445

JOINT RAKING TROWEL

Joint raking trowel for cleaning out joints and smoothing brick joint mortar, with wooden handle and steel blade.

MEASURES: 31 X 3 X 5 CM

REF: 2446

60MM CURVED SPATULA

Curved stainless steel spatula with 60 mm rigid blade and wooden handle.

MEASURES: 6 X 22 X 3 CM

REF: 2447

GLOVES BOX

Extra-strong black powder-free nitrile gloves
Single-use disposable gloves
Latex-free
Box of 100 units
Size XL

MEASURES: 24 X 13 X 7 CM

REF: 2448

ESTonetex Machines

for Theming Works

EST SIRIUS PLUS 230V

EST-SIRIUS PLUS is a 230 V single-phase spraying machine for dry and pre-mixed mortars and plasters, with 5.5 kW rated power (4 kW motor), adjustable output from 2–20 l/min for aggregates up to 4 mm, and quick three-part disassembly for easy transport and cleaning.

REF: 3000

EST-70 400V

EST-70 is a 400 V three-phase spraying machine with 7.9 kW power, adjustable output from 7–35 l/min for aggregates up to 4 mm, easy three-part disassembly (motor, mixer, hopper) and quick cleaning, ideal for spraying bagged mortars and plasters on walls, ceilings, façades and floors.

REF: 3001

EST SIRIUS PLUS 400V

UP-SIRIUS PLUS is a 400 V three-phase spraying machine with 6.8 kW rated power (5.5 kW drive motor), variable output from 7–35 l/min for aggregates up to 4 mm, EASY CLEAN system and quick three-part disassembly, ideal for pumping and spraying dry and pre-mixed mortars and plasters.

REF: 3002

EST MORTAR SPRAYER

Hopper spray gun with 5 L adjustable plastic hopper, 4–8 mm metal nozzles and air/material flow regulators, ideal for spraying paints, stuccos, thin layer mortars, textured coatings and stone-effect pastes on walls, façades and decorative sculptures.

REF: 3003

PNEUMATIC STAPLER

Pneumatic ring stapler for Simes simRT23 md80 staples, with 130-staple capacity, 5–7 bar (70–100 psi) working pressure, 23.8 mm staple length, 7.8 mm closure diameter, 33 x 21 cm size and 1.48 kg weight, ideal for fixing fibreglass mesh, expanded metal and wire mesh in theming.

REF: 3004

MANUAL STAPLER

Manual Salki FSK 20C ring stapler with ergonomic bi-material handle, 50-staple capacity, suitable for fastening fibreglass mesh to rods up to 8 mm in diameter and featuring integrated side wire cutters up to 3 mm for theming structures, fencing.

REF: 3005

PETROL GENERATOR AY-19000 V

Ayerbe AY-19000 V MN A/E is a 230 V single-phase petrol generator with electric start and Vanguard 627 cc engine, delivering up to 19 kVA / 15 kW (14 kW nominal) with a 25 L tank for about 7 h runtime at 75% load, ideal for 230 V spraying machines such as UP-SIRIUS Plus and other construction tools.

REF: 3006

PLANETARY MIXER

Filamos M80 planetary mixer with 70 L useful capacity (111 L drum), for homogeneous mixing of all types of mortars and concrete with aggregates up to 10 mm, featuring 1.5–3 kW motors at 230/400 V, 47–50 rpm mixing speed and robust wheeled steel.

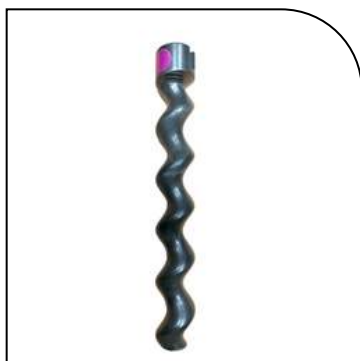

REF: 3007

D5-2,5 WORM PUMP 230V

D5-2.5 worm pump for 230 V single-phase spraying machines such as EST-SIRIUS PLUS, with approx. 25 L/min output at 400 rpm, 270 mm self-adjusting length, iron casing with reinforced rubber liner, suitable for cement and lime mortars, one-coat, adhesive and self-levelling mortars and plasters with aggregates up to 3 mm.

REF: 3100

ROTOR D5-2.5 230V

Rotor for D5-2.5 worm pump for 230 V single-phase spraying machines such as EST-SIRIUS PLUS, with approx. 25 L/min output at 400 rpm, 270 mm self-adjusting length, iron casing with reinforced rubber liner, suitable for cement and lime mortars, one-coat, adhesive and self-levelling mortars and plasters with aggregates up to 3 mm.

REF: 3101

D6-3 WORM PUMP 400V

D6-3 worm pump for 400 V three-phase spraying machines, with approx. 20 L/min output at 400 rpm, 270 mm self-adjusting length, iron casing with reinforced rubber liner, suitable for cement and lime mortars, one-coat, rendered, theming mortars and plasters with aggregates up to 3 mm.

REF: 3102

ROTOR D6-3 400V

Rotor for D6-3 worm pump for 400 V three-phase spraying machines, with approx. 20 L/min output at 400 rpm, 270 mm self-adjusting length, iron casing with reinforced rubber liner, suitable for cement and lime mortars, one-coat, rendered, theming mortars and plasters with aggregates up to 3 mm.

REF: 3103

WORM PUMP SPRAY

400 ml spray lubricant for assembling worm pump and rotor in single-phase and three-phase spraying machines.

Long-lasting and non-adhesive to mortar or plaster, preventing blockages inside the pump.

REF: 3104

30MM SPONGE BALL

30 mm sponge ball for spraying machine hoses, used to clean out mortar or plaster residues inside.

REF: 3105

CONICAL RUBER NOZZLE

Conical rubber nozzle for mortar and plaster spraying machine lances, 5.5 x 5.5 cm, with 12 mm and 14 mm outlet diameters.

MEASURES: 12MM
MEASURES: 14MM

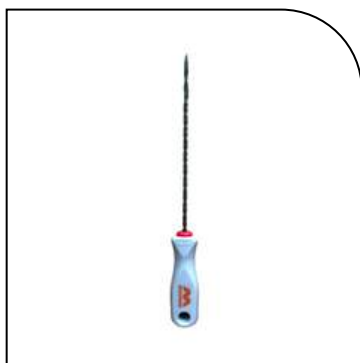

REF: 3106
REF: 3107

WATER FILTER

Water filter for single-phase and three-phase mortar or plaster spraying machines, 4 x 2.5 cm.

REF: 3108

ROUND FILE

Round file with plastic handle and rough iron blade, 27 cm long, for cleaning the air tube in spraying machines.

REF: 3109

SINGLE-PHASE SOLENOID VALVE 230V

Solenoid valve for single-phase spraying machines, regulating the water pump feed to the mixer.

REF: 3110

FLAT RUBBER GASKET

Flat rubber gasket for mortar and plaster spraying hoses.

- Outer diameter: 40 mm
- Inner diameter: 25 mm
- Thickness: 5 mm

REF: 3111
